## ABOUT US

Shankar Fenestrations was founded in 1996 we are professional manufacturers of upvc and aluminum doors & windows, fixed louvers and designer sections.

We operate three production lines in our 3500 square meter facility, and can annually produce 200,000 square meters doors & windows. Shankar Fenestrations is located in the Ghaziabad industrial area in main city. The SFGI aluminium architectural division is one of the leading fabricators of architectural aluminium doors, windows, curtain walls, structural glazing, aluminium composite panel, facades, cladding, skylight and other specialized aluminium architectural products.

## OUR PRODUCTS

At SFGI, we take pride in providing only the finest eco-friendly windows and doors to contractors, businesses and homeowners.

Our products are available in both uPVC and aluminum profiles, and all are attractively designed to suit even the most architects or owners.

## OUR INNOVATION

As a technological establishment, we have acquired and installed most modern European machines in our factories such as CNC cutting & processing centre CNC double head mitre saws, CNC four head welding and cleaning with conveyor systems, milling machine, hydraulic crimping and punching machine, drilling, assembly tables, bending machines, milling machines and glass processing with latest convection glass tempering furnace.
